

Milliken

CoFlex® NL Cohesive Bandages Pediatric Application

Milliken's CoFlex NL cohesive bandages help patients and caregivers when a self-adhering bandage is desired to secure, protect or compress. It is a gentle solution whenever adhesive is not wanted.

From proprietary latex-free formulation to EasyTear technology Milliken provides the right solution for every clinical task.

Milliken's Pediatric CoFlex NL cohesive bandages help deliver excellent care and comfort to patients.

Comfort

- Increases patient comfort while wearing through lightweight and breathable material
- Gentle on fragile skin because it adheres to itself and will not stick to skin, hair or clothing
- Conforms to the bodies contours

Versatility

- Maintains compression level throughout the duration of application. It does not loosen, constrict or unravel while wearing
- Secures IV's catheters, tubing and hot/cold packs
- Provides compression to reduce swelling or stave bleeding
- Multiple colors and prints for the pediatric patient

Safety

- Does not contain latex reducing the risk of skin irritation
- Made in USA with highest quality
- Does not require clips, pins or tape - reduces choking hazard risk
- Sterile option to minimize environmental contamination

Applications

- Blood banks
- Labs
- Orthopedics
- Podiatry
- Operating rooms
- Plastic surgery
- Pediatric ICU

Indications for Use

- Secure dressings
- Hold IVs in place
- Affix monitors and devices
- Support/light compression
- Pressure bandage

Kid friendly prints add a sense of fun that helps them feel more comfortable and encourages compliance.
