

# ULTRA Border

## Foam Dressings

Featuring AFM® Technology

ULTRA Border is a versatile silicone bordered foam dressing utilizing a highly absorptive foam coupled with Active Fluid Management® technology that keeps the wound bed moist, the periwound skin healthy, and harmful exudate away from a healing wound.

### Protection Film

- Breathable film that permits moisture vapor to escape
- Microbial barrier to prevent the potential of cross contamination

### Absorbent Polyurethane Foam

- Highly absorbent foam
- Conformable to wound bed

### Active Fluid Management

- Pull exudate away from the wound
- Preserve optimal moisture
- Protect healthy skin

### Gentle Silicone Border

- Easy application and removal
- Repositionable after application

## INDICATIONS FOR USE

- Partial thickness burns
- Incisions
- Skin grafts
- Donor sites
- Lacerations
- Abrasions
- Stage I-IV dermal ulcers (vascular, venous, pressure and diabetic)

## BENEFITS

- Removes excess exudate with Active Fluid Management technology
- Minimizes risk of maceration
- Protects healthy, intact skin
- Potential for fewer dressing changes
- Atraumatic to the wound and surrounding skin
- Ability to shower or bathe
- Protects wound from environmental pathogens
